

Songs of Victory by Betsy James

There's a light that scaring off shadows

There's a stirring deep in my soul

For I've seen help come from the mountains and I know I'm not alone

There's a cool breeze in off the water

Freedom's Spirit filling the air

And these once bound feet have started dancing

And there's dancing everywhere

Oh we hold Your Name as our banner

And to Your great promises cling

God, we give all the glory for teaching us to sing

These songs of victory that rise from this house

(Your songs of victory that rise even now)

There are new seeds promising harvest

And new voices ringing out strong

And those who walked in darkness are learning how to sing along

Yeah, the redeemed are singing songs – new songs

Oh victory in Jesus, my Savior forever

Oh victory in Jesus, my stronghold, my treasure

Oh victory in Jesus, Who sought me and bought me

And made me clean, made me free

Made me new, made me see

Made me strong, made me sing victory's melody
